

Cookies Policy

COOKIES POLICY

The Website uses the following types of cookies.

Technical Cookies

Technical and session cookies are used, i.e., small text files containing a certain amount of information exchanged between your terminal or browser and the website, which allow it to function properly and be enjoyed.

Analytical Cookies

Analytical cookies created and made available by third parties, namely Google Analytics, are used. This is done merely for internal statistical analysis of access, to improve the Website for tickets and to simplify its use, as well as to monitor its proper functioning. However, the Data Controller has adopted the most appropriate tools to reduce as much as possible the identifying power of this kind of cookies. It should be noted - for example - that for this Ticket Website the IP address anonymization function has been activated. Google Analytics publishes its cookie policy at the following link

<https://policies.google.com/technologies/cookies?hl=it>.

Profiling Cookies

The Website uses exclusively profiling cookies installed by third parties for the tickets.

Third party cookies

This Website uses analytical cookies created and made available by Google Analytics, as mentioned above, for the tickets.

Options regarding the site's use of cookies through browser settings

The provision of all cookies can however be deactivated by intervening on the settings of your browser or through the appropriate section in the banner. It is worth pointing out, however, that changing these settings could make the site unusable should you block cookies that are essential for the provision of our Services. In any case, each browser has different settings for disabling cookies. Below you will find links to instructions for the most common browsers: [Apple Safari](#), [Google Chrome](#), [Microsoft Internet Explorer](#), [Mozilla Firefox](#).
